April 24, 2018

Chairman Jeffrey Sanchez  
24 Beacon Street  
Room 243  
Boston, MA 02133

Dear Chairman Sanchez,

The Plymouth County League of Sportsmen represents the sportsmen and sportswomen of Plymouth County and surrounding areas. Our membership includes 18-member clubs and over 8,000 sportsmen.

The Plymouth County League supports the changes proposed in S.2249. We support these changes because regulation of the implements of hunting, trapping and fishing should be the responsibility of the agency charged with managing wildlife. Technical expertise within the Division of Fish and Wildlife will assure that our regulations keep pace with advancements in design. Regulations should be drafted by people who understand hunting, public safety, fair chase and population control.

The regulatory process within the Division of Fish and Wildlife provides public input on proposed changes and is sufficient to insure public safety and protection of wildlife resources. We support S.2249 and urge you to help move the bill through the final stages of the legislative process to a successful conclusion this year.

Sincerely,

Paul Johnson  
For the membership
